Green Light Signal Given for Vast Experiment Wage-Hour Control

FLOOR PLACED UNDER PAY AS BILL IS LAW

Act Comes Into Operation October 24, Affecting Wages of 200,000

WASHINGTON, June 28.—President Roosevelt has signed the United States wage-hour bill, giving the "go-ahead" signal for a vast experiment in putting a "floor" under pay rates and a "ceiling" over hours. The signing was done without fanfare Saturday, and was announced by White House officials Monday.

The act will go into operation Oct. 24. On that date, officials said, some 200,000 persons receiving less than 25 cents an hour are to have their pay increased to 25 cents. Whether any court fight over the act will delay its operation has yet to be determined.

NEEDS ADMINISTRATOR
The act provides for appointment of a wage-hour administrator, and well-informed officials said they expected the president to fill this post before he starts on his trip west, July 7.

The act applies to industries in interstate commerce, with some exceptions. They will be required to pay a minimum wage of 25 cents an hour during the first year after Oct. 24.

During the second year and five subsequent years the wage rate minimum will be 30 cents, and at the end of six years after the act goes into effect, the first minimum will be 40 cents.

MAXIMUM WEEK
To place a ceiling over hours the measure provides a maximum work week of 44 hours the first year, 42 hours the second year, and 40 hours thereafter.

The administrator is empowered to set up industry committees to investigate wage conditions in various industries and to recommend payment of the highest minimum rates as soon as economically justified. Thus the 40-cent minimum might be reached in some years in much less than seven years.

POLICE CARS HAVE RADIO ON TWO-WAY

VANCOUVER, June 28.—Two-way radio systems in two Vancouver police precincts are said to be the first installation of its kind in Canada, went into operation Monday. Police plan to install similar sets in eight other cars.

Red Is Choice

J. H. RED-LYMBURNER well known among aviation circles in Edmonton, who has been selected as one of Canadian pilots to go to the Antarctic with Ellsworth.

TWO CANADIAN PILOTS CHOSEN BY ELLSWORTH

MONTREAL, June 28.—Two Canadian pilots have been chosen for Lincoln Ellsworth's forthcoming air mapping expedition to the Antarctic. The Gazette says today.

The newspaper says the explorer has selected James H. Red-Lymburner of Montreal, a member of the 1935 expedition, and Burton J. Trezise, a native of Montreal, N.S., who has been flying recently in Quebec.

Present plans, the paper says, are for Lymburner to replace Harold Gatty-Kempson as No. 1 pilot. Trezise will step into Lymburner's spot in the second plane.

Purpose of the expedition is to map from the air one of the globe's largest unknown territories, the Eastern Quadrant of the Antarctic. The expedition consists of a ship, a motor launch, and a small plane, with a total of 250,000 square miles.

Mexico Rocked By Earthquake
MEXICO CITY, June 28.—Mexico City was rocked by a heavy earthquake today at approximately 1:25 p.m. (12:25 p.m. M.S.T.). Reports of damage or casualties were not immediately available.

The number and size of its coffee plantations makes the province of a Bedouin. Cattle-breeding among the Bedouins is a public ceremony requiring the use of many containers of different sizes.

BUCHAN BOYS TO SCATTER FOR SUMMER

John Goes To Baffin Land, William to Tibet, Alastair to Alberta

OTTAWA, June 28.—The three sons of Canada's first family will scatter across the world this summer as the first family of Canada. Lord Tweedsmuir will join Lord Tweedsmuir in England early in July to holiday for several weeks.

John Buchanan will take up the life of a Hudson's Bay Company trader in Baffin Island, Nunavut, who has ambitions to go to the Arctic with Ellsworth.

William, 22-year-old heir of Canada's governor-general, will sail from Montreal July 9 aboard the S.S. Naupaka on its yearly northward trip for 12 months' experience at Cape Dorset. In touch with civilization only by means of wireless, he will be one of three white men at the small Hudson's Bay Company trading post on the southwest corner of Baffin Island, where business is transacted with 800 Eskimos.

After two years' experience with the Hudson's Bay Company, Winnipeg, John told last week to spend a week in England with his mother, Lady Tweedsmuir, before returning to Canada to embark on his northern adventure.

A trip to the west with headquarters at a ranch in Alberta has been mentioned as a holiday for the youngest son, Alastair, who would keep interest in activities of cowboys when he accompanied the viceregal party through the west last year.

DYNAMITE IS UNEARTHED ON ROOSEVELT RUN

NORTH BERGEN, N.J., June 28.—Police Captain Louis Bachmann announced last night two boxes containing 40 sticks of dynamite had been unearthed near the main line tracks of the West Shore Railroad 1 1/2 miles south of a cut through the mountains that leads to the Weehawken terminus of the line.

The dynamite, he said, was "set to blow in the event of a fire." Captain Bachmann said the West Shore line was frequently used by President Roosevelt in his trips to and from his Hyde Park home. The dynamite apparently had been buried several months.

PARENT PAY-OFF TOO GALLING TO YOUNG CHINESE

VANCOUVER, June 28.—It's not marring the gift Peter Wang brought home to his parents, but it's too galling to the young Chinese couple in supreme contempt for the practice.

The case will be heard June 30.

DUCHESS SAYS GIBRALTAR IS UNDER MENACE

Continued from Page One
"No place that they could drop shells in Gibraltar but yet are in the hands of the highest point on the rock."

Nine naval-type guns of about four inches on Punta Carretera, at least one 15-inch gun on a high peak near Alcazar de San Juan, Spanish Morocco, directly opposite Gibraltar.

About 40 guns ranging from continued bombardings of British shipping in Spanish ports led to the destruction of two more merchantmen, the Arlon and the Farnham, with a loss of four lives.

Earlier hopes that a five-day lull in attacks on British ships might be a sign of a truce were dashed yesterday by the destruction of two more merchantmen, the Arlon and the Farnham, with a loss of four lives.

Federal Housing Bill Is Given Third Reading

OTTAWA, June 28.—Without discussion or dissent, the House of Commons today gave third reading to the housing bill and sent it to the senate for approval.

The bill provides for the extension of the housing act of 1935, provides additional funds for loans to home builders in conjunction with loan companies, makes special inducements for the construction of small houses, and for construction of smaller communities and authorized the loan of \$100,000,000 by the government for the erection of low-cost, low-rental housing projects.

Prometheus Winner

NEWMARKET, Eng., June 28.—Anthony De Rothschild's Prometheus, a colt by Tetrazzini from Blenheim, today won the July 1000 Guineas, a six-year-old colts race, by a margin of five lengths, 140 yards.

Robins Get Tough

PITTSBURGH, June 28.—Robins here are plenty tough. Charles Wilson said he saw a robin fighting a much larger cat in his garden and the robin killed and ate the snake.

SOUTH, CENTRAL RURAL BANKS' ALBERTA GIVEN GOOD SOAKING IS DISCUSSED

Continued from Page One
The rain supplied enough moisture to get the grain through the important growing period without depleting subsoil water. More rain is needed in Alberta to yield a bumper crop, however, the grain requiring another soaking within two weeks.

Alberta Government Telephone reported at 8 a.m. Tuesday that light rain fell at Westlock, Morinville, Edmonton, Athabasca, Hardisty, Stettin, Drumheller, Rummey, Grath and Medicine Hat, while heavy rain fell at Custer, Hinton and Milk River. It was raining at Telford at 8 a.m. Tuesday.

In Edmonton the rainfall from 11 a.m. to 11 p.m. Monday totaled 2.8 inches, a large amount of water to be deposited in a space of 11 hours.

DROP IN TEMPERATURE

With the coming of the rain the temperature dropped slightly, the highest reading for the day being kept down to 65 above, registered at 11 a.m. During Monday night the mercury went down as far as 50 above, from midnight to 8 a.m. Tuesday, and then the red line went back up to 65 above by 9 a.m. At that time the forecast was given as "warm, scattered showers."

Aiding both crops and forest fire fighting, rain again fell in the northern areas on Monday, the wet spots being Dawson Creek, Ponoka, Coyle, Hays, Spirit River, Fairview and Athabasca, all with showers, while Slave Lake took the deep water honor with 3 inches of rain Monday night.

Temperatures in the area were fairly well up at 8:30 a.m. Tuesday, ranging from 65 above, at Mirror Landing, to 52 above at Beaver Lodge.

Farther north, Alkavik was the warmest spot in its area with 60 above, while Dawson was lowest, of the 5 a.m. readings with 45 above.

5 Army Fliers Die In Crash

REIMS, France, June 28.—Five French army fliers were killed today when their military plane crashed and caught fire about 200 yards from the airfield here. The plane fell suddenly from about 800 feet.

A heavy pie will not be worth the serving if the juice doesn't run out of the crust into the oven while baking, according to an old New England superstition.

Statue Late Sovereign Site In Abbey's Shadow

By EDWIN JOHNSON
Canadian Press Staff Writer
LONDON, June 28.—Original plans for a large-scale Empire memorial to King George V, involving demolition of several historic buildings, have been modified in favor of a more "compact and harmonious" scheme.

By decision of the executive committee of the memorial fund, a statue of the late sovereign will be erected on a rectangular

FIX LICENSE AT \$200 FOR ALL MYSTICS

Reading that no action be taken to increase the license fee for fortune-tellers from the existing \$200 to \$500 a year, as proposed by the civic bylaws committee, Madame M. Fontaine, fortune-teller reading at 1073 1/2 avenue, told city council Monday night that she was assisting to support a family of six and could not afford to pay the increased fee.

Receiving the committee's recommendation to increase the license, council accepted another recommendation by the committee that annual fee of \$200 be levied on all phases of fortune-telling.

At the present time only palmists and phrenologists pay the \$200 license. In future, psychic readers, crystal gazers, clairvoyants, and astrological forecasters will also be required to pay this fee.

Bylaws committee's recommendation that the license be boosted to \$500 was made on a motion by Ald. J. L. Robinson, M.L.A., for LaSalle, and was defeated.

Regarding the closing of branch banks throughout the province, called upon the Dominion government to compel the banks to furnish the services for which they were given charters, or else clear the way for the province itself to turn the supplying of the essential services.

SCHOOL UNIT SYSTEM

In addition to the financing situation, the caucus directed some attention to the enlarged school unit system and heard resolutions of the members to the system.

General opinion was that the new system was working favorably and that it was beneficial to the people at a whole.

Evidence was that the caucus would be concluded on Tuesday night, as most of the members have made their plans to return to their homes.

2000 MILES Going
3000 MILES Gone!

TRITON MOTOR OIL

THIS 100% PURE PARAFFIN-BASE OIL CLEANES OUT CARBON AS YOU DRIVE, BOOSTS GASOLINE MILEAGE, STEPS UP HORSEPOWER

Triton smoothes out annoying and harmful carbon knicks usually within 3000 miles. It was successful in every car finishing a recent research test by 1024 owners!

Rid of excess carbon, the car developed an average of 5.4% more horsepower! Two-thirds of them got increased gasoline mileage. Every owner reported improved performance, a more enjoyable car to drive.

These results are due to propylene-solvent refining that makes Triton 100% pure paraffin-base, 100% pure lubricant. You get the finest type of lubrication money can buy—plus an oil that cleans out carbon as you drive.

SAVES YOU MONEY A WAY!

Keep knockouts away with Triton. Save money on carbon scrapes, gasoline, motor-oil, and oil drains. Have your nearest independent Triton dealer or Union Oil Service station make the change-over today. Note how performance picks up when Triton cleans out carbon as you drive.

Shafts

A will stipulates that a son will be a fortune if he gambles. He could do that anyway.

"Is your wife having any success

Shirley: Well, take my advice and don't have gas. They'll never be able to tell when you're unconscious."

John: Why do your people object to me as your fiancé?

Joan: Well, you see, there are five of us in our family, and your car is only a two-seater.

"Well, the road is beginning to turn when she does."

"First of all, my boy, realize that your time is limited. Secondly, say

"Clean your windows upstairs, lady?"

"No thank you."

"Downstairs, lady?"

"No, thanks."

"You want. Thirdly, be short."
"Well, dad, firstly I do. Secondly
will. Thirdly I am!"

"Parents are often a hindrance
to children in a career," says a
Jury councillor.

"Perhaps—but the children could
hardly start a career without them."

"Clean your greenhouse glass!"
"No."
"Give yer specs a polish, lady!"

Harry: You don't call yourself as
good a fisherman as Jones, do you?

Tom: Course not. Look at the
long arms he's got for describing
his catches.

Customer: Can you recommend a field class as being of high interest?

Salesman: Absolutely, sir. When you use them anything less than 10 miles away appears to be behind us.

A Sunday-school teacher had been telling her class of boys about the crown of glory they would earn in the hereafter.

"Now, boys," she said, "can you tell me who will get the biggest crown?"

"Yes, mum," said one of the pupils.

The noblest words
That man's composed
Are few and terse:
Find choice enclosed."

In a college town a student called on a boarding house to inquire about rooms.

"And what do you charge for your rooms?" he asked.

"Yes, but we have the room, the room, the room," he said.

"Yes, but I'm a student," he said, "thinking the price a little high."

"That being the case, the price is the same for you as for the society, who had had experience.

TERRY Kicks in \$400 For Suitcase Seeds

NEW YORK, June 28.—Apparently unwilling to risk banishment to Alaska by Mayor Frank Hague, something which probably would follow any further attempt to take George Myatt, the young and gifted shortstop away from Jersey City farm club, Willie Terry sought help elsewhere for his harassed Giants and is reported to have \$400 for Suitcase Bob Seeds, Newark outfielder.

For some considerable time Willie has been looking over two international league players. The dope was that either or both would become Giants at any minute. One of the minor league was Suitcase Bob Seeds, Newark outfielder and the country's current home run king; the other is third baseman Jim Outlaw of Syracuse.

The boss Giant has been acutely pining for both ever since deciding that the Giants present roster would not do. The reports on Outlaw, who is Cincinnati property and played some 40 games at third for the Reds early last season, were better. He is hitting a hot .300. The reports on Seeds have been better. He is hitting the ball from town to town.

RAW SEEDS SLAM EM

A few days ago Willie went to Newark, New Jersey to meet with his 25th home of the season. It was to the extent of a bluff. Terry said he couldn't see too well because of poor light conditions, but the blunderer must have sounded sweet to Willie. When he talked to Willie, the manager of the Newark farm system after the game, Willie talked a lot, but the price remained at 40 cents. New Willie's head was burning. He greenbacks 1000 weeks before he goes and it looked like he would either price catch for the Newark club who had charged the Giants \$4000 a long time ago or he would be in 1938.

Willie would give Willie but little grace to think over the deal. Willie was ready to ask for another 10 grand for the outfielder. Willie now amounts to something of an international league gate attraction. Willie the Newark boss had his eye behind the eight ball for his new suitcases.

Navy Breaks Huskies' Grip Rowing Honors

POUGHKEEPSIE, N.Y., June 28.—The United States Naval Academy's courageous varsity crew broke the Far West's grip on college rowing supremacy and smashed all four mile records Monday in a dramatic drive to victory that climaxed the college championship regatta on the Hudson River.

While their injured coach, Charles Mack Walsh, watched the finish from a hospital wing, the midshipmen withstood pressure of California's closing challenge to win the race by a margin of 1.5 seconds on the official stop-watch.

Washington's famous Huskies, champions for the past two years, and their two successive victories of this regatta, tallied the sailors' six fully by boat.

HUSKIES THIRDS

The Huskies, beaten for the first time in any variety competition since the start of the regatta, were surprised to find that the Navy crew surpassed the former four-mile record. Navy, achieving victory in the Middles, then sailed the first time in 1938, beating the Huskies by a margin of 1.5 seconds with the aid of a brief following wind and a strong current. The mile of 18:35.35 set last year by Washington.

Charles Mack Walsh, who cracked his spine in a fall Saturday, hardly could have asked for a better day. He was in a hospital wing, but he was able to watch the race from a window.

ONE TWO

The Pacific coast crews were one-two in each of the preliminary races.

Washington's freshmen came from behind to nip Washington by a narrow margin in the opening mile race, with Syracuse, Columbia and Cornell trailing. Washington's freshman triumph on the Hudson ended a four-year streak by the Huskies.

Washington captured the three-mile Junior title in the first of the regatta's five races. The Huskies, in salvaging their line through a rough race, won by a length in the last 150 yards, a length in the last 150 yards, a length in the last 150 yards.

Butch Murphy Quakes In McLemore's Brograms

By "BUTCH" MURPHY (Fiction-Writing for Henry McLemore)

NEW YORK, June 28.—My name's Butch Murphy and writing a sports column isn't my business. I work on a rivet-gang. I'm the guy who hangs on the side of a building and catches those red hot chunks of steel. There's nothing too hot for me to handle. This guy McLemore picked Schmeling out to knock out Louis and his mad got so hot he couldn't open it. He offered me the job and I thought I had a cinch. Now I ain't so sure. I blathered my thumb on the first one.

Get a load of it, I'll give you the name of the Memorial apartment hotel, Nashville, Tennessee. You flopped, glue-clusted apple eater, but what sapper and sinner is it? You're a rattle-brained, egg-head. Your pick of Schmeling proved you are a rattle-brained, egg-head.

"You diffident in picking winners is a Godsend to scribble down the name of the Memorial apartment hotel, Nashville, Tennessee. You flopped, glue-clusted apple eater, but what sapper and sinner is it? You're a rattle-brained, egg-head. Your pick of Schmeling proved you are a rattle-brained, egg-head."

FAN THIS ONE The next letter I get my hands on was better than any I've ever read. It was from George J. Meyers of 100 St. Louis, Mo. He said he didn't like McLemore, you're not a bum, you're a tramp, you're a home body, you're a chicken-flicker. Anybody who can't pick fights any better than I can, you're a home body, you're a chicken-flicker.

Where Britain's 'Undeclared War' Drags

House Guest Won't Leave Unless Wed

OTTAWA, June 28.—A thin thread of mythology among Indian tribes of the United States and Canada is declared by Mayhew New York, assistant secretary of the Smithsonian Institution, as additional proof of the migration of the earliest Americans from Asia.

In a report to the American Association for the Advancement of Science, Earl W. Count of the New York Medical College decries the "earth-dweller" or "earth-digger" and "the rival tribes" competing for human worship apparently trace back to a common origin although they are found in many parts of Europe, Asia, and North America.

The earth-dweller myth or story has been traced from Finland and the Baltic through Siberia to Caucasus, Turkestan and Mongolia as found among the gypsies of India and southeastern Asia and among the nomads of northern Athabascans, Algonquins, and Ironspeak, Indian tribes, in northern and western Georgia. The rival tribes myth has a similar distribution, he added.

is a brief resume of the Central European situation, Mr. Weynowski?"

"Huh?" said Ed the Weasel.

"Better skip it, I guess. But do you honestly expect us to live on stuff like this all the way to Canada?"

The Weasel grinned. An idol of

ing. "Flicks beneath the nose with the tongue," she said, "has produced the same expression."

"That's right," he said. "Come, take a bite and enjoy yours in the Ritz."

She raised her pomp-bottle.

"You're not 'doing the reveal'?"

"You bet," Kelly told her. "I believe you're actually enjoying this."

"I never had a better time in my life," said Joe, draining the bottle.

The drowsy repeat over the Wollastons' radio was "The Speed Racer" after the fashion of one who has dined inadequately on a diet of "The Great Escape" and "The Longest Day" and must avail the fastest of Kelly.

500,000 Casualties

LONDON, June 28—Figures recently published here show that more than 500,000 persons were killed or injured on London streets in the last 10 years, private cars being responsible for about one-third of the accidents.

thrown his other arm around Kelly and permitted her head to rest against his shoulder. But the presence of Ed, the Weasel, deterred him. He shrank from exhibiting affection before the eyes of an in-

Wednesday is Opportunity

take it, that's all."
"Dai," said Kelly disgustedly.
"Just a couple of brother Eiks.
aren't you?"
"Go to sleep," advised Joe.
And Kelly did. The Ford rolled
easily over the wide smooth high-
way. The steady drone of the motor
was soothing. Presently her eyes
closed. Her head turned a little to

The Weasel broke a long silence: "Lissen, guy," he said, "how come you're takin' dis so easy? You know wet I mean. You don't act like you give a damn if you go to

Canada." "Why should I?" said Joe. "Canada or Camarone, what's the difference? It's the gypsy in me. Anyhow, Canada listens better than Boston about now."

"But the dame's got a yen to go

CALGARY MILK PRICES BEING INVESTIGATED

Judge A. A. Carpenter is Hearing Argument From Producers, Consumers

CALGARY, June 28.—Price of milk in Calgary, relating to 11 cents a quart since 1935, was the subject of public inquiry today.

Judge A. A. Carpenter, chairman of the Alberta board of public utility commissioners, will hear argument from representatives of producers seeking maintenance of the present price—and consumers who urge a reduction.

ONE CENT INCREASE

Prices were increased one cent a quart as an emergency measure, authorized by Judge Carpenter after a public hearing, two years ago.

Since that time the situation has changed, consumers' counsel, will claim.

There is no feed shortage, pasture lands are covered "knee deep" in grass. However, producers and distributors will present argument that other factors enter into the distribution and sale.

The city of Calgary, representing consumers, is interested in the investigation. It was at the suggestion of the city that the public hearing was called.

500 JOBLESS WILL PRESENT PLEA OF WORK

Crowd in Victoria Disatisfied With Offer Of Temporary Help

VICTORIA, June 28.—Five hundred jobless men, outspokenly dissatisfied with proposals for dispersal and British Columbia governments to help them temporarily, were quarrelled over the offer of vacant buildings which they prepared for the next episode in their mass demand for permanent work.

Joint statements by Premier Pattullo of British Columbia and by the Hon. Norman Ross, federal minister of labour, yesterday, confirmed the offer.

FREE TRANSPORT for "home-bound transients" back to their homes.

Temporary relief under the transportation can be arranged.

The prospect of joining war veterans and unemployed army and navy men on joint works projects and on federal public works as they become available.

Roosevelt In Welcome To Swede Prince

WILMINGTON, Del., June 28.—President Roosevelt, standing under a rain-drenched canopy, welcomed in "true friendship" Monday a prince and princess of Sweden.

And from there—Prince Bert and Crown Princess Louise—the president accorded with "profund gratitude" a moment for "personal greetings" to the royal couple.

Where the first of their countrymen landed in the new world.

The president spoke at the 300th anniversary celebration of the arrival of these immigrants. "Buck" here, President Roosevelt addressed "them" as "the first of our countrymen."

Only One Black Spot In Picture Of Saskatchewan

SASKATOON, Sask., June 28.—Rain brought relief Monday to thousands of parched acres in the northwestern districts of Saskatchewan, and in the west-central sector brought promise of the first crop in many years.

As the grain approaching a crucial period—the heading stage—welcome moisture fell over a wide area, bringing from nearby an inch in the territory adjacent to the Alberta border to showers in more northerly sections.

The north central part however, remained dry, and the drought here was not believed seriously.

Two Hurt In Plane Crash At Moose Jaw

MOOSE JAW, Sask., June 28.—Two men were injured last night when the Moose Jaw City Club plane in which they were practicing landings, crashed half a mile north of the city. The plane ploughed into an open field and is practically a total loss.

Sam McCree, of Lorne Lake, Sask., who pilots a commercial plane, and another man, suffered a bad cut between the eyes and leg, and were taken to hospital. Peter Fleming, of Saskatoon, suffered face cuts but was not believed seriously hurt.

Farm Laborer Killed As Horse Team Runs Away

MEDICINE HAT, Alta., June 28.—Walter Tuck, 24, farm laborer on the ranch of George Armstrong in the Elkwater district, 40 miles south of here, was killed yesterday afternoon in a runaway team of horses. R.C.M.P. here was notified.

Special Constable Harry Crook, R.C.M.P. here, was notified by Constable D. B. Patterson, late of Regina, that some of the accident to investigate.

German Envoy Is Called Home by Von Ribbentrop

Observers See German Move Towards Alignment With Japan in Far Eastern Conflict As Parallel With Spain

BERLIN, June 28.—It appeared here last night the Nazi regime believes the time has come for a cooling of relations with China. Diplomatic quarters believed recalled the ambassador to Hankow, Oskar Trautmann, might be the first step toward severance of relations with General Chiang Kai-Shek's regime.

While there was no official information on Foreign Minister Joachim von Ribbentrop's motive in calling back Dr. Trautmann for a report, foreign observers saw therein the beginning of a parallel with action in Spain.

After the outbreak of the Spanish civil war Germany gradually withdrew from involvement in Spain and then followed with positive support of General Franco.

Germany, similarly, has given at least ideological endorsement to the Japanese cause, and in the interim, conflict, and certainly no one here believes Trautmann will return to China.

It is known Chiang Kai-Shek tried hard to build trust in Germany, but has been fighting for continuation of a neutral course by Germany in the Orient.

GAS SAVING IN FORCE BY END OF JULY

Operating Program Will Be Worked Out, Says W. F. Knode

CALGARY, June 28.—Gas conservation measures will be in effect in the Turner Valley by the end of July, according to present plans of the Alberta Gas Conservation Commission. W. F. Knode, chairman of the commission, declared here last night.

The commission will begin to function as such on July 1, through orders-in-council. Hon. N. E. Turner, minister of lands and mines, announced at Edmonton Monday.

"We have been aided in preliminary work by much data provided by the department of lands and mines and by information of our own regarding Turner Valley. We hope to have our operating program worked out and functioning pretty well by the end of July," Mr. Knode said.

First step to be taken by the commission, will be the testing of all crude wells to survey possible Mr. Knode said. Wells will likely be taken off regular production or production, and given 24-hour tests, he said.

Future plans of the commission could not be made public as yet, he added.

COUNT SEEKS PEACE WITH WIFE BARBARA

COPENHAGEN, June 28.—Count Haugvold-Reventlow may return to London in an effort to effect a truce in the divorce proceedings against him by his wife, the former Barbara Hutton.

Withdrawal of the order restraining the Count from interfering with the Countess, would be a prelude to divorce proceedings, Danish sources, an attorney acting on behalf of the Count, indicated Monday.

LONDON, June 28.—Countess Barbara Hutton Haugvold-Reventlow denied at her London home, last night reports circulating in Copenhagen that a petition for separation from her Danish husband had been filed in Danish courts.

CANOISTS ARE ON THEIR WAY ALASKA-WARD

WINNIPEG, June 28.—Robert Fuller, 31-year-old San Diego, Cal., sculptor and Max Buesen, 30, a photographer, left Buffalo, N.Y., making a 1,500-mile canoe voyage from the Battery in New York to Nome, Alaska, were in Winnipeg Monday.

They made an all-nighter trip to Fort William at the last night but came to Winnipeg by train because their midnight motor needed repairs. As soon as repairs are completed they will continue the Nome journey.

World Crop Of Wheat Is Likely Above All Needs

ROME, June 28.—The International Institute of Agriculture reported today that this year's world crop of wheat probably would be sharply above the world's needs.

"The institute estimates that in the present state of things it would require an exceptional series of unfavorable circumstances for world wheat production not to be at least equal to that of last year, when it was abundant," the institute said.

It is very probable that most wheat-growing countries will have surplus stocks which have a strong economic exportable quality, while the demands of importing countries, it appears, should be met without raising the level of the shipping market.

Sentry's Slap Mrs. Massie Is Protested

WASHINGTON, June 28.—United States made representation to Japan Monday regarding a Japanese woman's death.

Thomas H. Massie, ex-convict, naval lieutenant, Marine, sailor, and under-secretary, said he represented the woman was shot by a sentry while she was on a ship.

Winnipeg Pioneer, G. F. R. Harris, Dies

WINNIPEG, June 28.—G. F. R. Harris, 61, a pioneer of the Canada Permanent Mortgage Corporation, died here Monday. He was a member of the Winnipeg Club and a pioneer of Winnipeg, died last night.

EMPLOYMENT IN INDUSTRY ON INCREASE

Statistics Show 43,335 More Are At Work In Single Month

OTTAWA, June 28.—Industrial employment was on the increase in Canada at June 1 and 43,335 more persons were employed on that date than on May 1.

Data tabulated from the Dominion Bureau of Statistics showed 1,652 firms had 1,068,620 persons on the payroll compared with 1,025,285 on May 1. There was a decrease over June 1, 1937, when 1,018 firms employed 1,087,535 persons.

The employment trend, compared with May 1, was upward in each of the five economic areas and percentage gains ranged from 2.1 in British Columbia to 6.9 in Quebec.

Alberta and Quebec were the only provinces to show gains over June 1, 1937, while the situation was unchanged in Prince Edward Island and lower in each of the other provinces.

The employment situation in prairie provinces, particularly in highway and railroad construction and maintenance, manufacturing, mining and trade reported little general change.

The 1,592 firms employed 123,479 persons, against 116,463 in the preceding month. At June 1, 1937, the 1,438 employers making returns reported 126,385 workers.

BOY SCOOPED UP IN SHOVEL WITH GRAVEL

COLOMBURG, Que., June 28.—Jean Louis Bergeron, eight years old, went out Sunday to hunt for his dog. Then he disappeared.

John's father, Achille Bergeron, a contractor at Colomburg, Big scope him out of a gravel pit and dumped them into hot trucks, and the trucks carry the loads off to highway jobs.

A few hours after Jean got lost, a truck rolled up to a job with a load of gravel. Jean's shovel was bumped onto the road with the gravel.

A corner's jury decided today he must have fallen into the load.

JAPAN'S WAR ON CHINA HAS SIGNS BOGGING DOWN

SHANGHAI, June 28.—Japan's war on China shows signs of bogging down on all fronts.

The most active front was the Yangtze River valley, with Chinese troops, shore batteries, and planes stubbornly opposing the over-riding drive toward Hankow.

In a sector along the north bank, near Tientsin, the Chinese reported they were able to beat off two Japanese attempts to land Japanese troops.

Far to the north Chinese troops reported reconnoitering of 30 companies of soldiers and planes in the province in the past two months.

SPEAR STILL WAITS CHANCE SPEAR DIONNE

CHICAGO, June 28.—Federal Judge John P. Barnes Monday sentenced John P. Barnes, 27, a former promoter of the Dionne quintuplets, to 10 years in prison.

Dr. Allan R. Dufre, their medical guardian since birth, and others, were alleged the defendants broke a contract signed shortly after their birth under which he planned to exhibit the quintuplets at a Century of Progress exposition in 1934.

Suspicion Of Spying Probed After Arrest

PORT COLBORNE, Ont., June 28.—Corporal H. S. Turner, a Royal Canadian Mounted Police constable, is suspected of spying activities of a man, believed a German, who gave the name of Louis Turner, who was arrested on a charge of vagrancy as he loitered in a restaurant near St. Mary's.

Naturalization papers, bearing the name of Alekski Ignatowski, were found in the man's possession, and a week for investigation when he appeared in police court. Turner was 32 years of age, married, and was a native of Poland.

How the Federal Government Seeks Greater Business for Canada

By Developing Export Trade

As a Canadian you are a partner in a four-million dollar a day business, for in the calendar year 1937 Canada exported goods valued at more than a billion dollars. \$1,124,960,000 to be exact. Out of that huge sum came part of the wages you were paid, part of the profits on your business, part of the professional fees you collected. You, therefore, have a very selfish interest in this great export trade and in the work that is being done to promote it.

Trade Commissioners In Foreign Markets

To make business grow either at home or abroad, more goods must be sold at a profit. To extend export trade, the Canadian Department of Trade and Commerce has located Trade Commissioners in every major market with which Canada can profitably do business. These specially trained representatives are constantly investigating foreign markets and energetically promoting the sale of more Canadian products.

Work That Has Helped Expand Canada's Trade Abroad

The extensive and intensive sales promotion work conducted by the Department of Trade and Commerce has played a practical part in Canada's rise to a high position among the export nations of the world. It has helped expand the national income and improve employment.
